

THE TIMES OF NARAYANA

NARAYANA GROUP OF SCHOOLS
The Champion of JEE, Medical, National & International Olympiads

NARAYANA'S HOLISTIC EDUCATION NOW EMPOWERS STUDENTS OF DELHI

39 years of
Academic excellence...

The Narayana Group is Asia's largest educational conglomerate with over 360,000 students and 35,000 experienced teaching and non-teaching faculty in over 560 centres. Spread across 13 states, Narayana is the pride of India. Narayana is hosting a bouquet of schools, junior colleges, engineering, medical and management institutions, coaching and correspondence centres along with IAS training academy. With three and a half decades of experience in catering to the needs and aspirations of students, Narayana has already set a benchmark in academic excellence by continuously delivering top and matchless results in intra-national and international competitive examinations.

As a unit committed towards hard work and perfection, the Narayana Group endeavors to bring out the best in every student by imparting strong educational foundation and constant innovation by offering exceptional student experiences, especially to suit to emerging challenges in the 21st century.

Why
NARAYANA is

Empowering students is the mantra

Narayana encourages young minds not only to listen, but also to be heard. From early on, they are prepared to take calculated risks, go the extra mile and become exemplary professionals in their chosen fields. All this happens in an environment of caring & sharing. Thus, imparting holistic education is the hallmark of Narayana.

The commitment and passion

Learner centered education is the intrinsic goal of Narayana. Narayana has committed itself to enriching the way education is imparted. This commitment and passion strengthens Narayana's vision to empower students to make them future global leaders.

How NARAYANA Enriches

Career Oriented Coaching... Right From Schooling

Narayana offers strong foundation and promises the best subject knowledge enhancement with different methodologies of foundation & implementation for all the Medical & Engineering streams related to competitive courses & entrance examinations.

Narayana gives global edge to every student through International Olympiads, develops life skills like Communication & Interpersonal skills, Decision making and critical thinking, Self-management, Leadership qualities, Language empowerment.

Instilling Inspiration, Innovation & Interaction

Dr. P. Sindhura Narayana
Managing Director

Dr. Narayana an eminent educationist, visionary and a prodigy in Mathematics with an experience of 35 years in the field of education is the man behind the development of 7 years integrated IIT-olympiad programme.

This programme is a step forward in the direction of imparting training to students for the competitive examinations like IIT and Olympiads held at national and international levels.

This programme has an integrated approach towards the subject by the inclusion of State, CBSE, ICSE, IB and IGCSE syllabi. By teaching the linked topics of higher classes, we inculcate lateral and progressive thinking capacity in the child. Students will be taught necessary concepts to mould themselves to prepare for competitive exams.

With unmatched results in every sphere of education, our commitment to be the best has only grown to transform our institutes into centers of excellence. That is why at Narayana we say, "It's not just education, It's empowerment."

Unique Features of NARAYANA

A DAILY RAPPORT WITH PARENTS THROUGH DIARY & E-DIARY

Laboratories: Our laboratories are equipped with all supporting demonstration tools with highest quality standards in terms of safety and cleanliness. Our lab activities are integrated with day to day teaching schedule. This helps the child to get complete education by practical way of applying concepts.

Projects: Projects play a very important role as they inculcate scientific temper, competitive spirit, zeal to learn and excel among the students. Projects develop coordination ability, team spirit and presentation skills followed by VIVA

Library: Library is a place for making students learn and explore knowledge beyond the classroom. Our libraries are well loaded with wide range of books and journals on various subjects with all latest editions for reference. These reference books enable students to develop a true perspective and a practical approach in understanding the subject thoroughly.

Video conference: A unique feature of NARAYANA where students of our branches across the nation compete through video conference for the weekly activities. We organize interactive sessions periodically with expert personalities of the society. This gives them exposure and an innovative learning experience.

Edutainment: Another unique feature of NARAYANA is edutainment in which various activities are conducted every week in MPC to fine tune the concepts through Quiz, Group Discussion, Mind mapping, Quiz on applying thought, Data sufficiency, Quiz on mental ability, Quiz on logical ability and Folding and Unfolding of concepts. These activities ensure development of conceptual skills and personal competencies.

e-Projects: It is an exclusive learning experience at NARAYANA which aims to provide students with the opportunity to browse and synthesize the knowledge from various areas of learning, critically and creatively apply it to real life situations. This process enhances students' knowledge and enables them to acquire skills like communication, independent learning and prepares them for lifelong learning and challenges ahead.

Computer Lab: Exclusively equipped computer labs are developed at every branch with round-the-clock high speed internet connectivity. They accommodate multimedia presentations in all subjects to help the students learn linguistics & communication skills. Our students are provided with hands-on practice sessions to learn the nuances of Information Technology in a detailed manner to face the challenges of today's competitive world.

Global Update: Students are made to browse various websites on the chapter taught to understand the latest innovations and developments in Science and Technology at Global level.

Linguistic Lab: Encouraging students to learn language skills in a simpler and smarter manner through •Language development •Social skill enhancement •Rhyme exploration •Listening skills •Presentation skills •Vocabulary enrichment •Pronunciation and phonetics

THE TIMES OF NARAYANA

NARAYANA GROUP OF SCHOOLS
The Champion of JEE, Medical, National & International Olympiads

Education is not Filling of a Pail, but Lighting of a Fire NARAYANA ignites the fire within

Narayana e-kidz offers unparalleled quality education for kindergarten kids that aims for their holistic development, enabling journeys of experience to seamlessly transition into acquired wisdom. Established in 2010, it is the pre primary wing of Narayana Group of Schools with students enrolled in the CBSE curriculum in over 174 branches across the country. Our objective is to empower the child to develop strong intellectual, physical and social skills by employing a futuristic outlook to impart traditional human values. To guide young minds attain a purpose and tenacity of their own. Our academic programme encourages them in initiating ideas and directs efforts to help them gather a world-view in confidently accepting the foremost learning challenges, all in a fun-filled environment.

PHILOSOPHY

Our Vision

To create responsible 'kidzins,' develop intellectual potential, embrace change and forge new traditions in creating leaders of tomorrow.

Our Mission

To inculcate a habit of constant learning in the child. To foster a genuine and dependable relationship with the family of the child. To be empowered as facilitators rather than just teachers.

FONDRE – An amalgamation of the best practices.

A child's mind during his early years can be compared to a clean slate, where learning new things are etched like ever-lasting impressions. Narayana e-kidz believes that a child's growth is not only dependent on such learning, but also on understanding the underlying principles, patterns and relationships that define them. We are determined in imparting a strong and wholesome foundation through 'Fondre', (French for 'fusion into something') which is descriptive of our philosophy towards all-round development of your children. It intends to help them apply their gradually increasing knowledge in all things around them, so that they explore the big picture rather than a few individual phenomena. This way, the child not only develops material content but also procedural knowledge and strong awareness of their possible application. Imbibed in natural cohesion with one another, the Fondre philosophy at e-kidz helps nurture the intellectual, physical and social capabilities of the child, through quality education.

ACADEMIC PROGRAMME

Early childhood education in the contemporary world calls for unparalleled quality through universal standards of learning. Narayana e-kidz is emerging as a leader in meeting such

yardsticks with a world-class and uniquely formulated curriculum within CBSE that enables children to learn naturally and thematically. Its state-of-the-art infrastructure contributes greatly to children's natural urge of trial-and-error until successful accomplishments of tasks. While the e-kidz project of the Narayana Group of Schools associates high significance with child-initiated learning, original ideas are allowed to blossom.

Ideating is taken a step further by our well-trained staff, when children are familiarized to e-learning and audio-visual modules while they understand technology as a virtual medium differently. Throughout all branches of Narayana e-kidz, teachers follow uniform micro schedules and core instructional material which are simple and self-explanatory for the child to understand the curriculum. Since the scope of such material extends to all the three dimensions, special precautions are taken in avoiding any kind of toxic objects to come in contact with the vicinity of your child.

Programme Highlights

- World class curriculum
- State - of - the - art infrastructure
- Non - toxic teaching / learning material
- Effective soft skills programme
- Child initiated learning methodology
- Technology based learning
- Monthly events / celebrations / competitions
- Portfolio assessments
- Continuous and Comprehensive Evaluation.
- Partnering with parents
- CCTV Monitoring
- Well trained staff
- Theme based tablon-panel
